Stefan Schärer
(Head of Facility
Management)

«We had the pleasure of spending a very exciting morning with the team from Stucki Leadership and Team Development. Many thanks again for the very pleasant cooperation! The facility management staff of armasuisse Real Estate exchanged in different groups about their experiences and challenges regarding working remotely (home office). Helpful hints were worked out in order to be able to better meet the challenges of digital collaboration and to show possibilities of not losing the overall view of the work to be done even in the changed environment.»
